¶8. Crime Situation in Yemen: A security briefing by the Regional Security Officer (RSO) is mandatory upon arrival. The incidence of street crime is very low throughout Yemen, and violent crimes against foreigners are rare. However, kidnappings by tribes continue to be a threat to foreigners visiting Yemen. Because of recent terrorist threats against U.S. interests on the Arabian Peninsula and the increased tensions in the entire Gulf region, the Embassy advises all visitors to remain vigilant with regard to their personal security and to exercise caution. Avoid large crowds and gatherings, maintain a low profile, and vary routes and times of all required travel. Travelers should read the latest Consular Information Sheet, which describes current conditions.

¶9. Money: Travelers must bring sufficient funds or have sufficient funds in personal checking accounts to cover costs of entire TDY. THERE ARE FEW ATMS IN COUNTRY, AND ACCEPTANCE OF CREDIT CARDS IS LIMITED) BRING CASH/CHECKBOOK. Many local merchants and businesses accept U.S. currency for purchases. The current exchange rate is YR 196 to USD 1.

¶10. Weather: The weather in Sanaa is generally warm during the day, and a sweater may be necessary at night. Weather in Aden and along the Red Sea coast is normally very hot and humid. Business suits are preferred for meetings with Yemeni officials. All clothing should be modest and conservative.

¶11. Health Precautions: Bring at least a 3-month supply of medications. Practice food and water precautions as in other developing nations. Begin immunization for hepatitis A and B, rabies, typhoid, tetanus, and polio prior to departure. Yellow fever vaccination is required if entering from a country at risk. If you spend more than a few days outside Sanaa, malaria prophylaxis may be required and you will be required to have G6PD blood testing. Local hospital care may be required for emergencies. Local medical providers expect immediate cash payment. Be prepared to pay several hundred dollars and the rest prior to departure from Yemen. While you will be provided documentation of medical care rendered to give to your insurance providers, it is your responsibility to recover funds from your agency or insurance plan. The cost of evacuation can cost up to \$100,000. Emergency Air Evacuations for other than MSGs, Seabees, DOS direct hires, and DOD staff require an obligated fund site PRIOR to the evacuation. Travelers should contact their administrative offices before departure to obtain this information. Out of country hospitalization for non-DOD and non-DOS direct hires require an obligated fund site to cover the hospitalization PRIOR to the hospitalization. Travelers should contact their administrative offices before departure to obtain this information. Each traveler should check in with the Medical Unit for a short medical briefing as soon as possible after arrival. Individuals with sickle cell trait should carefully consider the altitude of this post before applying for assignment here. Short-term (TDY) assignments carry an added risk because of the lack of time for acclimatization. Dehydration and stress from exercise or illness compound the basic risks of high altitude. For more information, contact your health unit or the medical clearances section of the Offices of Medical Services.
